ALEENA ELDHOSE

React Frontend Developer

+91 6238721648 | aleenaeldhose4021@gmail.com | LinkedIn

PROFILE SUMMARY

Frontend Developer with expertise in React and frontend tools, skilled in building responsive, efficient, and engaging web applications. Skilled in developing dynamic, scalable interfaces, backed by a 6-month internship and thorough MERN stack training. Dedicated to ongoing learning and enhancing performance to provide innovative solutions .

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), HTML5, CSS3, SCSS
- **Frontend Frameworks & Libraries:**
  - **Core:** React.js, Next.js, Redux, React Query, Axios
  - **Data Visualization:** Recharts
- **UI & Styling Frameworks:** Tailwind CSS, Bootstrap, Material UI (MUI), ShadCN
- **Backend & Databases:** Node.js , Firebase, MongoDB, REST APIs, Google Maps APIs
- **Technologies:** WebSockets
- **Tools & Platforms:** GitHub, Vercel, Postman, VS Code

EXPERIENCE

Teqbae Innovations and Solutions India Pvt Ltd KOCHI   Aug 2024 – Present
Frontend Developer

- Developed REBS Accounts, an accounting solution, using **React**, **Tailwind CSS**, and **Material-UI** .
- Created responsive UI components, optimizing data management with **React Query** and **Axios** for seamless performance.
- Enabled real-time features through **WebSocket** integration and **Firebase** push notifications for improved user engagement.
- Integrated **Google APIs** for location-based functionality, ensuring efficient and dynamic application features.
- Contributed to HRMS module development, improving frontend usability and fostering effective team collaboration.

PROJECTS

REBS Accounts

Technologies: React.js, Tailwind CSS, Recharts, React Query, Axios, Google API, Material UI (MUI).

- Independently developed a comprehensive accounting solution for efficient business management.
- Built a user-friendly dashboard for real-time data monitoring, including sales, billing, stock, and marketing analytics.
- Implemented staff tracking functionality for enhanced operational oversight.

ZNEEM Pharmacy - **Admin Dashboard**

Technologies: React.js, Tailwind CSS, Material UI (MUI), Recharts, Axios, React Query, Google Maps.

- Developed an admin dashboard for managing pharmacy operations with a focus on data visualization and operational efficiency.
- Designed a dashboard with various graphs to analyze pharmacy data across different time ranges.
- Created modules for managing pharmacy operations, driver tracking, and inventory stock management.

Mavex Mentr- Abroad Consultancy Platform

Technologies: React, Tailwind CSS, Recharts, Redux, WebSocket, Firebase, Axios, React Query, Material UI.

- Developed responsive admin and counselor dashboards.
- Built features for managing leads, visualizing data with graphs, tracking lead progress, staff performance, and creating student plans with required documents.
- Implemented real-time chatting, document monitoring, and detailed reports for counselors and call statuses.

Biltree (Construction Company Management)

Technologies: React, Tailwind CSS, Google Maps, Axios, React Query, Material UI

- Contributed to a dashboard for monitoring company activities and financial data.
- Developed features for project management, employee tracking, and financial reporting.

Food Delivery App

Technologies: MERN Stack (MongoDB, Express.js, React, Node.js), Stripe

- Built a food ordering app with user authentication, shopping cart, and admin panel.

EDUCATION

Bachelor of Technology ,Computer Science &Engineering - CGPA-7.9   2019 – 2023

Mar Baselios Institute of Technology & Science (MBITS), NAAC Accredited - Kothamangalam, India

CERTIFICATES

Luminar Technolab - MERN Stack   DEC 2023 – JUNE 2024

- Gained expertise in MERN stack by creating and optimizing responsive front-end interfaces, improving full-stack web application efficiency.

VOLUNTEER EXPERIENCE

- **National Service Scheme**: Contributed to community service and social welfare initiatives.
- **IEEE**: Participated in technical workshops and collaborative projects.
- **College Job Fair**: Assisted in organizing and executing a career-focused job fair.
- **College Tech Fest**: Coordinated events for a successful technical festival.
- **Tech Fest Leadership**: Led a 6-7 member team to manage a key event.
